Illawarra's Leading Bra Fitting and Post Mastectomy Specialist

At Casamia we appreciate the physical, and emotional trauma and stress that can be experienced when diagnosed with Breast Cancer You may experience loss of confidence and self esteem along with feelings of anxiety. It is our aim to help relieve that pressure.

It is our desire to offer a sensitive and complete breast care service. We pride ourselves in offering you a service and environment where we make no compromises.

We are dedicated to improving the well being of our clients, to help restore their body image and self esteem, to regain their confidence and contribute to their long term wellness

Casamia staff are trained experienced fitters chosen for their compassion and dedication to helping women affected by cancer.

We offer you a comprehensive selection of prosthetic breast forms and bras to balance your new body shape.

A prosthesis is a natural-feeling artificial breast. It comes in a variety of shapes, sizes, colors, and textures and is made of silicone gel, foam, or fibrefill. A breast prosthesis is pre-fitted into a bra, undergarment, and bathing suit for instant, reshaping of the chest that resembles a natural breast.

Getting Fitted

It is preferable to wait 6-8 weeks after surgery before being fitted with a permanent breast form, this is to allow for any swelling at the surgical site to resolve. If you are unsure check with your breast care nurse or medical practitioner.

Your Fitting

If possible, please make an appointment for your fitting so we can give you our full attention. Your fitter will discuss your lifestyle and lingerie preferences with you and fit a breast form to suite. It is best to wear comfortable clothing to your appointment. A top with skirt/trousers is easiest for the fitting. Bring a favorite top to try so you can see how you look. You are welcome to bring a friend, partner or family member with you to your appointment

Home Fitting service is also available

Help with Financial cost

Medicare rebate available up to \$400 for each new or replacement breast prostheses every two years
